he purpose of publication of this book is only to give cooperation and information to the youth coming in the Indian industries, how the administrative department works within the industrial units, and what are their responsibilities, along with this, the administrative department has to maintain law and order and industrial To achieve the objectives, light has been thrown about the arrangements for making and following the policy. In a dynamic business environment, the key responsibilities of the administrative department have been consolidated in maintaining competitive advantage and producing high quality products and maximizing company effectiveness. At the same time, in the knowledge-based economy, knowledge is also included as an important factor in improving the effectiveness of manufacturing companies. Construction companies generally prefer to be optimally effective. Along with this, the industrial internal and external security arrangements have also been highlighted, and detailed information has also been compiled on the modernization of firefighting equipment, its main objective is to give information about industrial units to the young generation of India and This book is being published for this pious purpose to make it easier for them to work in these departments. Due to the vary nature of Company's
